

SEMICONDUCTORS FOR ALTERNATIVE ENERGY TECHNOLOGIES: OPPORTUNITIES AND MARKETS

Table Of Contents

| | | |
|------------------|---|------------|
| | | |
| Chapter 1 | Introduction | 1-1 |
| | | |
| Chapter 2 | Solar Energy | 2-1 |
| | | |
| 2.1 | Solar Infrastructure | 2-1 |
| 2.1.1 | Current developments | 2-2 |
| 2.1.2 | Worldwide installed photovoltaic totals | 2-9 |
| 2.1.3 | Applications of PV | 2-11 |
| 2.1.3.1 | PV Power Stations | 2-11 |
| 2.1.3.2 | PV in Buildings | 2-13 |
| 2.1.3.3 | PV in Transport | 2-15 |
| 2.1.3.4 | PV in Standalone Devices | 2-18 |
| 2.1.3.5 | Rural Electrification | 2-18 |
| 2.1.3.6 | Solar Roadways | 2-19 |
| 2.1.4 | Economics of PV | 2-19 |
| 2.1.4.1 | Power Costs | 2-19 |
| 2.1.4.2 | Grid Parity | 2-20 |
| 2.1.4.3 | Financial Incentives | 2-21 |
| 2.1.5 | Solar Forecast | 2-24 |
| 2.2 | Semiconductor Technology | 2-26 |
| 2.2.1 | Inverter/Converter Devices | 2-26 |
| 2.2.2 | Key Component Semiconductor Devices | 2-35 |
| 2.3 | Forecasts | 2-44 |
| 2.3.1 | Inverter Forecast | 2-44 |
| 2.3.2 | Semiconductor Forecast | 2-52 |
| | | |
| Chapter 3 | Wind Energy | 3-1 |
| | | |
| 3.1 | Wind Energy Infrastructure | 3-1 |
| 3.1.1 | Electricity Generation | 3-2 |

| | | |
|------------------|--------------------------------------|------------|
| 3.1.1.1 | Grid Management System | 3-2 |
| 3.1.1.2 | Capacity Factor | 3-3 |
| 3.1.2 | Turbine Placement | 3-4 |
| 3.1.3 | Offshore Wind Farms | 3-4 |
| 3.1.4 | Utilization Of Wind Power | 3-9 |
| 3.1.5 | Small Scale Wind Power | 3-16 |
| 3.1.6 | Economics And Feasibility | 3-17 |
| 3.1.6.1 | Growth And Cost Trends | 3-17 |
| 3.1.6.2 | Theoretical Potential | 3-22 |
| 3.1.6.3 | Direct Costs | 3-22 |
| 3.1.6.4 | External Costs | 3-23 |
| 3.1.6.5 | Incentives | 3-24 |
| 3.2 | Semiconductor Technology | 3-25 |
| 3.2.1 | Key Component Semiconductor Devices | 3-25 |
| 3.2.2 | Semiconductor Forecast | 3-29 |
| | | |
| Chapter 4 | Fuel Cells | 4-1 |
| | | |
| 4.1 | Fuel Cell Infrastructure | 4-1 |
| 4.1.1 | Fuel Cell Design | 4-1 |
| 4.1.2 | History | 4-3 |
| 4.1.3 | Types of fuel cells | 4-4 |
| 4.1.3.1 | Polymer Electrolyte Membrane | 4-4 |
| 4.1.3.2 | Phosphoric Acid | 4-6 |
| 4.1.3.3 | Direct Methanol | 4-8 |
| 4.1.3.4 | Alkaline | 4-8 |
| 4.1.3.6 | Molten Carbonate | 4-10 |
| 4.1.3.7 | Solid Oxide | 4-12 |
| 4.1.3.8 | Proton Exchange Fuel Cells | 4-15 |
| 4.1.3.9 | Regenerative (Reversible) Fuel Cells | 4-20 |
| 4.1.4 | Efficiency | 4-20 |
| 4.1.4.1 | Fuel cell efficiency | 4-20 |
| 4.1.4.2 | In practice | 4-21 |
| 4.1.5 | Fuel cell applications | 4-23 |
| 4.1.5.1 | Applications | 4-24 |

| | | |
|------------------|--|------------|
| 4.1.5.2 | Hydrogen Transportation And Refueling | 4-28 |
| 4.1.6 | Fuel Cell Manufacturers | 4-34 |
| 4.2 | Semiconductor Technology | 4-46 |
| 4.2.1 | Key Component Semiconductor Devices | 4-46 |
| 4.2.2 | Semiconductor Forecast | 4-55 |
| | | |
| Chapter 5 | Storage/Electric Vehicle Technology | 5-1 |
| | | |
| 5.1 | Storage/Electric Vehicle Infrastructure | 5-1 |
| 5.1.1 | Usage And Applications | 5-2 |
| 5.1.2 | Charging And Discharging | 5-4 |
| 5.1.3 | Active Components | 5-6 |
| 5.1.3.1 | Common Rechargeable Battery Types | 5-9 |
| 5.1.3.2 | Less Common Types | 5-10 |
| 5.1.4 | Recent Developments | 5-11 |
| 5.1.5 | Batteries for Electric Vehicles | 5-16 |
| 5.1.5.1 | NiMH Batteries | 5-16 |
| 5.1.5.2 | EV Li-Ion Rechargeable Batteries | 5-20 |
| 5.1.5.3 | Start-Stop Batteries | 5-38 |
| 5.1.6 | Vehicle Charging | 5-44 |
| 5.1.6.1 | Grid Impacts | 5-48 |
| 5.1.6.2 | Communication | 5-48 |
| 5.2 | Forecasts | 5-54 |
| 5.2.1 | HEV/EV Forecast | 5-54 |
| 5.2.2 | Charging Station Forecast | 5-56 |
| 5.2.3 | Key Component Semiconductor Devices - HEV/EV | 5-59 |
| 5.2.4 | Key Component Semiconductor Devices –Charging Stations | 5-63 |
| 5.2.5 | Semiconductor Forecast – HEV/EV | 5-72 |
| 5.2.3 | Semiconductor Forecast – Charging Station | 5-74 |
| | | |
| Chapter 6 | Geothermal Energy | 6-1 |
| | | |
| 6.1 | Geothermal Energy Technology Infrastructure | 6-1 |
| 6.1.1 | Geothermal Technologies | 6-1 |
| 6.1.2 | Advantages | 6-6 |

| | | |
|------------------|-------------------------------------|------------|
| 6.1.3 | Disadvantages | 6-7 |
| 6.1.4 | History Of Development | 6-8 |
| 6.1.5 | Developments Around The World | 6-8 |
| 6.1.6 | Geothermal Forecast | 6-17 |
| 6.2 | Semiconductor Technology | 6-21 |
| 6.2.1 | Key Component Semiconductor Devices | 6-21 |
| 6.2.2 | Semiconductor Forecast | 6-24 |
| | | |
| Chapter 7 | Nuclear Power | 7-1 |
| | | |
| 7.1 | Nuclear Power Infrastructure | 7-1 |
| 7.1.1 | History | 7-6 |
| 7.1.1.1 | Origins | 7-6 |
| 7.1.1.2 | Early Years | 7-7 |
| 7.1.1.3 | Development | 7-8 |
| 7.1.2 | Future Of The Industry | 7-10 |
| 7.1.2.1 | Micro Reactors | 7-12 |
| 7.1.2.2 | Small-Medium Reactors | 7-15 |
| 7.1.3 | Nuclear Reactor Forecast | 7-32 |
| 7.2 | Semiconductor Technology | 7-54 |
| 7.2.1 | Key Component Semiconductor Devices | 7-54 |
| 7.2.2 | Semiconductor Forecast | 7-56 |
| | | |
| Chapter 8 | Energy Harvesting | 8-1 |
| | | |
| 8.1 | Harvesting Energy | 8-1 |
| 8.1.1 | Vibration Energy | 8-3 |
| 8.1.2 | Thermoelectric Energy | 8-6 |
| 8.1.3 | Electromagnetic Energy | 8-11 |
| 8.1.4 | Piezoelectric Energy | 8-13 |
| 8.1.5 | Electrostatic (Capacitive) Energy | 8-15 |
| 8.1.6 | Light Energy | 8-16 |
| 8.2 | Storing Energy | 8-16 |
| | | |
| Chapter 9 | Hydroelectricity | 9-1 |

| | | |
|-----------------------|---|------|
| | | |
| 9.1 | Introduction | 9-1 |
| 9.2 | Generating Methods | 9-2 |
| 9.2.1 | Conventional (Dams) | 9-2 |
| 9.2.2 | Pumped-Storage | 9-5 |
| 9.2.3 | Run Of The River | 9-8 |
| 9.2.4 | Tidal Power | 9-12 |
| 9.2.4.1 | Tidal Stream Generator | 9-13 |
| 9.2.4.2 | Tidal Barrage | 9-14 |
| 9.2.4.3 | Dynamic Tidal Power | 9-14 |
| 9.2.4.4 | Tidal Lagoon | 9-14 |
| 9.3 | Sizes, Types And Capacities Of Hydroelectric Facilities | 9-16 |
| 9.3.1 | Large Facilities | 9-16 |
| 9.3.2 | Small Facilities | 9-16 |
| 9.3.3 | Micro Facilities | 9-17 |
| 9.3.4 | Pico Facilities | 9-19 |
| 9.3.5 | Underground Facilities | 9-19 |
| 9.4 | Forecasts | 9-22 |
| 9.4.1 | World Hydroelectric Forecast | 9-22 |
| 9.4.1.1 | Large Hydro Power Plants | 9-22 |
| 9.4.1.2 | Small And Micro Hydro Power Plants | 9-25 |
| 9.4.2 | Semiconductor Forecast | 9-27 |
| | | |
| List Of Tables | | |
| | | |
| 2.1 | Total Photovoltaic Peak Power Capacity By Country | 2-10 |
| 2.2 | World's Largest Photovoltaic Power Plants | 2-12 |
| 2.3 | Required PV PCS System Functions | 2-32 |
| 2.4 | PV Inverter Market Distribution | 2-48 |
| 2.5 | Forecast Of On-Grid Inverters By Type | 2-51 |
| 2.6 | Forecast Of Semiconductors For Solar Applications | 2-53 |
| 3.1 | Operational Offshore Wind Farms | 3-7 |
| 3.2 | Offshore Wind Farms Under Construction | 3-8 |
| 3.3 | Installed Windpower Capacity (MW) | 3-10 |
| 3.4 | Annual Wind Power Generation (TWh) | 3-11 |

| | | |
|------------------------|--|------|
| 3.5 | U.S. Installed Capacity (Megawatts) | 3-13 |
| 4.1 | Fuel Cell Comparisons | 4-17 |
| 4.2 | Fuel Cell Details | 4-18 |
| 4.3 | Worldwide Fuel Cell Shipments By Application | 4-41 |
| 4.4 | Worldwide Fuel Cell Shipments By Region | 4-42 |
| 4.5 | Worldwide Fuel Cell Shipments By Type | 4-45 |
| 5.1 | Rechargeable Battery Technologies | 5-7 |
| 5.2 | 10-Year Costs For Electric Vehicle Batteries | 5-18 |
| 5.3 | Breakeven Costs For EV Batteries – 40 Mile Range | 5-19 |
| 5.4 | Breakeven Costs For EV Batteries – 100 Mile Range | 5-21 |
| 5.5 | Types Of Charging Stations | 5-45 |
| 5.6 | Typical Charging Times By Power Level And Electric Vehicle | 5-47 |
| 5.7 | Forecast Of Charging Stations Shipments By Region | 5-58 |
| 5.8 | Forecast Of Semiconductors For HEV/EV Automobiles | 5-73 |
| 5.9 | Costs For Various HEV/EV Chargers | 5-75 |
| 7.1 | Worldwide Nuclear Reactors By Region | 7-2 |
| 7.2 | Small-Medium Reactors | 7-15 |
| 7-3 | Number Of Reactors In Operation Worldwide | 7-32 |
| 7-4 | Number Of Reactors Under Construction Worldwide | 7-33 |
| 7-5 | Nuclear Share In Electricity Generation (%) | 7-34 |
| 8.1 | Comparison Between Different Ambient Energy Sources | 8-2 |
| 9.1 | Conventional Hydroelectric Power Stations In Service | 9-4 |
| 9.2 | Pumped-Storage Hydroelectric Power Stations | 9-9 |
| 9.3 | Run Of The River Power Stations | 9-11 |
| 9.4 | Tidal Power Stations | 9-15 |
| 9.5 | Forecast Of Small And Mini Power Plants In Europe | 9-26 |
| List Of Figures | | |
| 2.1 | Flat Plate Solar Collector | 2-3 |
| 2.2 | Parabolic Trough Solar Collector | 2-4 |
| 2.3 | Solar Dish/Engine Collector | 2-5 |
| 2.4 | Solar Power Tower Collector | 2-6 |
| 2.5 | Forecast Of Solar Power | 2-25 |
| 2.6 | Centralized Inverter Structure | 2-27 |

| | | |
|------|---|------|
| 2.7 | String Inverter Structure | 2-29 |
| 2.8 | Micro-Inverter Structure | 2-30 |
| 2.9 | Micro-Converter Structure | 2-34 |
| 2.10 | Block Diagram Of Solar Inverter System | 2-37 |
| 2.11 | Full Bridge IGBT Topology | 2-42 |
| 2.12 | Solar Installations By Country By Type | 2-50 |
| 3.1 | Evolution Of U.S. Commercial Wind Technology | 3-5 |
| 3.2 | U.S. Installed Capacity (Megawatts) | 3-14 |
| 3.3 | Worldwide Wind Turbine Shipments | 3-19 |
| 3.4 | Wind Power As Percent Of Electricity | 3-21 |
| 3.5 | Semiconductor Revenues From Wind Energy Systems | 3-31 |
| 4.1 | Polymer Electrolyte Membrane (PEM) Fuel Cell | 4-5 |
| 4.2 | Phosphoric Acid Fuel Cell (PAFC) Fuel Cell | 4-7 |
| 4.3 | Alkaline (AFC) Fuel Cell | 4-9 |
| 4.4 | Molten Carbonate (MCFC) Fuel Cell | 4-11 |
| 4.5 | Solid Oxide (SOFC) Fuel Cell | 4-13 |
| 4.6 | Proton Exchange Fuel Cell | 4-16 |
| 4.7 | Transition To A Hydrogen Economy | 4-29 |
| 4.8 | Hydrogen Reformer Fueling Station | 4-32 |
| 4.9 | Diversified Fuel Cell Development | 4-38 |
| 4.10 | Fuel Cell Inverter In Car | 4-47 |
| 4.11 | Block Diagram Of Fuel Cell Inverter | 4-51 |
| 4.12 | Semiconductor Revenues From Fuel Cell Systems | 4-56 |
| 5.1 | Mass And Volume Energy Densities Of Secondary Cells | 5-8 |
| 5.2 | Battery Capacity For An Electric Vehicle | 5-19 |
| 5.3 | Battery Price With Increased Production | 5-20 |
| 5.4 | Cathode Material Cost | 5-23 |
| 5.5 | Target For Li-Ion Rechargeable Batteries | 5-25 |
| 5.6 | Diverse Range Of Candidates For Cathodes | 5-28 |
| 5.7 | Improving Cathode Materials | 5-30 |
| 5.8 | Battery Loads - Conventional Versus Stop-Start System | 5-35 |
| 5.9 | Shipments Of Start-Stop, HEV, PHEV, AND EV | 5-38 |
| 5.10 | Start-Stop Market Forecast | 5-39 |
| 5.11 | EV Communications Control System Overview | 5-51 |
| 5.12 | Forecast of Global Sales of HEVs and EVs | 5-57 |

| | | |
|------|--|------|
| 5.13 | Forecast Of Charging Stations Shipments By Type | 5-59 |
| 5.14 | A Simple Diagram Of A HEV Traction Drive System | 5-61 |
| 5.15 | A More Complex Diagram Of PEEM In A Plug-In Hybrid Electric Vehicle (PHEV) | 5-62 |
| 5.16 | Schematic Of Charging Stations | 5-65 |
| 5.17 | Circuit Diagram For Level 1 & 2 Charger | 5-69 |
| 5.18 | Circuit Diagram For Level 3 Charger | 5-71 |
| 5.19 | Revenue Forecast For Semiconductors For HEV/EV Chargers | 5-77 |
| 6.1 | Geothermal With Well to Magma | 6-2 |
| 6.2 | Conventional Geothermal Well | 6.4 |
| 6.3 | Geothermal Heat Pump | 6-5 |
| 6.4 | Forecast of Geothermal Installed Capacity | 6-18 |
| 6.5 | Forecast of Semiconductors for Geothermal | 6-27 |
| 7.1 | Hyperion Nuclear Reactor | 7-13 |
| 7.2 | Heat Transfer For Different Primary Coolants | 7-30 |
| 7.3 | Historical And Projected World Energy Use By Energy Source, 1980-2030 | 7-52 |
| 8.1 | Technologies for Harvesting Energy | 8-4 |
| 8.2 | Electromagnetic Vibration Energy Harvester | 8-5 |
| 8.3 | Thermoelectric Energy Converter And Photovoltaic Cell | 8-7 |
| 8.4 | The Four Main Blocks Of A Typical Energy-Scavenging System | 8-9 |
| 8.5 | The LTC3108 Converter/Power Manager | 8-12 |
| 8.6 | Piezoelectric Energy Harvesting Beam and MEMS Varactors | 8-14 |
| 8.7 | Constant-Current/Constant-Voltage Battery Charging Model | 8-17 |
| 9.1 | Cross Section Of A Conventional Hydroelectric Dam | 9-12 |
| 9.2 | Cross Section Of A Pumped Storage Hydro System | 9-6 |
| 9.3 | Forecast For Hydroelectric Power Generation | 9-23 |
| 9.4 | A Six Pulse Diode Bridge ELC With IAG System Configuration | 9-29 |
| 9.5 | Cost Breakdown Of A 500 Mw Hydropower Plant | 9-31 |
| 9.6 | Cost Breakdown For Small Hydro Projects | 9-32 |
| 9.7 | Global Small And Micro Hydro Power New Capacity Forecast | 9-33 |
| 9.8 | Global Semiconductor Revenues For Small And Micro Hydro Power Forecast | 9-34 |
| | | |
